"Rhett knows his stuff and has strong teaching skills. You would have thought he taught in the classroom for years with many of the strategies he uses. Nice mix of fun and learning. Rhett worked with middle school and high school students and advisors from around the state, in a new city everyday. He brought high energy and was thought provoking. What an awesome combination!"
Sara Nilles, Director, Oregon Association of Student Councils

"It was absolutely the best seminar I have ever been part of. Evaluations from the participants were all excellent. At the end of the seminar they were eager to commit to do productive and far reaching goals. Because of your training, encouragement, and challenges they were very eager to make some changes and strengthen Home Economics Careers and Technology programs in California."
Nina Dilbeck, California Director of Home Economics Careers and Technology Professional Development Project
